Mojave Yearbook: We're Picture Perfect

My students need excellent cameras in order to keep up the momentum of the wonderful new program at Mojave High School.

My Students

My students come from a place where success is not thrust upon them but thrust away from them. We are in a very low-income neighborhood, and sometimes, my classroom is the only place where they hear the words, "I love you."

Recently, our yearbook program has undergone some changes with me at the helm of our program.

Now, we are focusing on a (mostly) student-led yearbook with requirements heavy in writing, creating, and photography. The students have been excelling extremely well when it comes to new concepts. However, we still need some help.

We are in need of great cameras in order to catch the shots we need. Next year, we want to continue the momentum of our yearbook program by making it better and better. To do that, we need higher level photography tools, especially better cameras for the entire class to use.

My Project

My students will be able to use excellent cameras and practice real photography skills without having to use their phones. Some students do not have the ability to shoot with their phones (especially if they cannot afford them), so having these cameras will be a game changer for our program that we are trying to make wonderful.

My students want nothing more than to make a beautiful yearbook.

To do that, we need the tools to succeed, which includes the technology to learn proper photography and journalistic techniques. Thank you so much for your continued support of the Snakeskin Yearbook at MHS!
